sales@eleetwoodworking.com

At E. Leet Woodworking, we offer custom design and fabrication of unique and specialized wood products. We manage a large CNC machine shop where we machine wood, composites and metal. We operate our facility using our decades of fine woodworking experience. Our services will provide you with unlimited opportunities to develop new products for your company.

CNC Services

We specialize in **2D & 3D machining** of simple and complex wood products and components from 1 to 100,000 parts or more. We can efficiently cut both **sheet goods and solid wood**. Ask us about our composite and metal capabilities!

- ◆ 3 Axis CNC with 4' x 8'
- ◆ 4 Axis CNC with 5' x 12'
- ◆ 4 Axis CNC with Twin 5' x 5'
- ◆ 4 Axis CNC with Twin 5' x 5'
- ◆ 4 Axis CNC with 5' x 6'
- ◆ 4 Axis CNC Laser Cutter
- ◆ 10 Printer Prusa Mini 3D Print Farm
- ◆ Fusion F410 3D Printer

Custom Molding

Our knife cutting and molder is **completed in-house**, allowing us to have exclusive control to produce your projects. We're capable of **Custom template & knife grinding** and keep a template library for future orders.
