Millwork & Molding

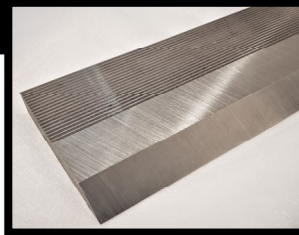

Molding

Final pricing is based on the total number of linear feet provided to the customer when the job is complete plus any additional fees. There are several factors to consider when determining price.

Milling Fee: *\$0.40/linear foot (starting price)
Setup: \$100.00/profile

Custom Knife grinding

High Speed Steel: \$10.00/in
Grinding fee: \$25.00/in
Sharpening: \$15.00/knife
(minimum 2 knives per profile are require)

Standard profiles

<https://tooling.weinigusa.com/category-s/1982.htm>

High Speed Steel: \$25.00/in

*Rough Material Grading and Pricing Considerations

Graded/Sorted Lumber: Professionally milled flat with thickness variation < .125", kiln dried, sorted and graded for desired quality.

S2S: \$0.40/LF
S3S: \$0.50/LF
S4S: \$0.75/LF

Good Quality: Professionally or hobby milled, thickness variation .125" to .250" kiln or air dried, unsorted width and desired quality.

S2S: \$0.45/LF
S3S: \$0.60/LF
S4S: \$0.85/LF

Poor Quality: Hobby milled and thickness variations > .25", air dried, poorly stack, warped, water damage and splintering

S2S: \$0.65+/LF
S3S: \$0.70+/LF
S4S: \$0.95+/LF

(Material rejection will be at the discretion of the molder operator. Any rejected material will be returned to owner and not included in the total linear foot cost.)
